

Live Entertainment & Concert Venue Infrastructure

World-Class Performance Destinations – Gateway East & Gateway West

The concert venue and live entertainment infrastructure create the potential for world-class performance destinations unlike anything else in the region, combining concerts and entertainment with the broader destination hospitality, rodeo, and cultural resort experiences.

Large-scale amphitheaters and indoor venues can host nationally touring artists, music festivals, sporting events, and cultural celebrations within dramatic landscapes.

Designed for year-round activation, these entertainment venues are positioned to become major attractions that drive tourism, regional visitation, and national recognition – establishing the Gateway developments as premier entertainment hubs.
